Project Report

Project Title:

Pay Role Management Website

Internship:

Web Development Internship - Rixi Lab

Intern ID:RL25010121

Name:

Riyaz Basha

Submission Date:

August 15, 2025

Technologies Used: HTML, CSS, JavaScript

Work Summary:

The webpage takes the bill amount as input and handles error cases such as negative values or paid amount less than the bill. After validation, the main logic computes the minimum number of notes required to return as change to the customer. Example: Bill = 500, Paid = 2000 -> Change = 1500. The page displays the count of each note and total notes used.
